March 1, 2017

Major Taylor's hard road to glory demands to be depicted on the big screen, and John Howard's telling of the story is uniquely informed and passionate. Howard, a world record-setting cyclist himself, and his team eloquently convey the thirst for speed that fuels a champion against the odds. "The Black Cyclone" movie will bring a forgotten trailblazer out of the shadows and inspire new generations to overcome. We're going with a winner!
